

GMAX™ II (HD 3-in-1) Standard

The Industry Standard in Petrol-Powered Airless Sprayers

PROVEN QUALITY. LEADING TECHNOLOGY.

GMAX™ II (HD 3-IN-1) Standard

Petrol-Powered Airless Sprayers for Professionals

For Everyday Reliability!

If you're looking for technology that gets the job done, this is for YOU. Technology that has proven to do the trick, time and time again. The GMAX II family consists of Graco's most popular petrol-powered Airless sprayers for professionals. With over 25 years' experience in providing proven quality and unmatched on-the-job productivity, it has become an industry standard. A standard you can trust to get the job done.

THE STANDARD SERIES are suited for professionals that don't need extras but are looking for everyday reliability to get the job done quickly and easy.

CHOOSE THE RIGHT UNIT

The GMAX II range is ideally suited for high-production professional contractors who demand uninterrupted performance without the need for electric power.

The **GMAX II 3900** (120 cc) is the perfect sprayer for professional paint jobs on new residential construction job sites.

The **GMAX II 5900** is a step up from that. With its 200 cc Honda engine, it delivers the output you require for larger commercial paint projects. Along with its high performance 200 cc Honda® engine, the **GMAX II 7900 HD** is equipped with a heavy duty pump, enabling it to easily spray all thicker coatings as well as the full range of primers and paints.

... and go for the Standard Series for everyday reliability! Take a look at the features that have turned our GMAX II range into the industry standard. Discover this standard, like so many other professionals have already.

Endurance™ Chromex™ Piston Pump

Repack the pump in minutes with the new QuikPak Cartridge System

- QuikChange™ pump design allows you to swap the pump easily on the job
- Faster cleaning with the QuikAccess™ intake foot valve
- All GMAX II 7900 sprayers feature Graco's extreme-duty MaxLife™ Pump with both MaxLife sleeve and rod

Honda® Engines

The industry standard engine for the industry standard sprayer! All GMAX II units are equipped with Honda® engines (contractor preferred) that deliver unmatched performance to the pump.

Advantage Drive™

The drive is the critical link between the engine and the pump. Graco doesn't leave the production of our Advantage Drive System to others; we design and manufacture it at our world-class manufacturing facility in the United States.

- Hardened steel gears run extremely quietly
- The most durable, longest lasting drive in the industry

SmartControl™ 3.0 with Pressure Gauge

Graco's advanced SmartControl 3.0 offers precision pressure control that delivers a consistent spray fan without pressure fluctuations.

- Spray thicker coatings and run longer hoses

Materials & Applications

The GMAX II STANDARD series are ideal for spraying a full range of coatings during residential, commercial and industrial jobs. Spray acrylics, primers, emulsions, waterborne and solvent-based paints with the 3900 and 5900, or upgrade to the 7900 HD to handle most common anti-corrosive and fire-retardant paints and Airless plasters as well!

EXTEND YOUR SPRAYING AUTONOMY

When used with a hopper or container suction kit, you can work for longer periods of time before refilling. Use for overnight storage or to transport your material. You will save energy, time and money.

! TIP

Always begin working at low material pressure.

Gradually raise the pressure, but only to the minimum pressure required for successful application. Using too much pressure can cause pack-out due to aggregated materials or dirt.

For improved pump performance when spraying paint with the GMAX II 7900 HD unit, replace the ceramic ball in the lower pump with the SST ball (delivered free of charge with the unit).

TiltBack™ Cart Design

Sprayer kick stand allows convenient, one-person bucket change and makes it easier to clean and maintain your pump.

Semi-Pneumatic Wheels

- Roll easily over rough terrain

Contractor PC™ Gun

FINISH JOBS FASTER WITH LESS FATIGUE
Premium Comfort for All-Day Spraying

- Lightest gun in its class
- Up to 50% lighter trigger pull force
- E-Z Fit adjustable trigger length
